VIRTUAL
INTEL DIVERSITY & INCLUSION TECH SUMMER FOR LAW STUDENTS

September 22, 2020 at 5:00 p.m. PT (8:00 p.m. ET)

You are invited to join Intel Corporation's Diversity & Inclusion team for our inaugural D&I Technology Law Summit. This webinar, offered in cooperation with our partner law firms, is designed to encourage diverse law students of all backgrounds to consider a career in the technology sector, in support of our goal that the technology industry reflect the diversity we see every day in the world around us.

Part 1 of the two-part program kicks off on September 22 with a two-hour program. Through an interactive panel discussion and TED Talk-style presentations, our speakers will address a host of top-of-mind issues, including:
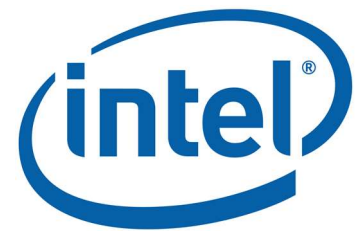

- The impact of the COVID-19 pandemic on the legal industry and technology sector
- What law firms and technology companies are doing to promote racial equity
- Advice and inspiration from diverse attorneys working on the cutting edge of technology law, both in-house and in private practice

Part 2 is planned for later in the school year.

To register for this webinar, please click [here](#).

We continue to monitor the COVID-19 situation and plan to host a complimentary in person program when it is safe to do so. We hope you will be able to attend both our virtual and in-person events.
